

# Get a better gage on your instruments!

Learn how at this affordable, half-day seminar.

## Easy Gage Tracking

If you need an easy, foolproof way to manage your measurement devices, this seminar is for you. This course is designed for quality practitioners who are responsible for managing their plants' devices, whether they are tracking 20 or 20,000.

This half-day session will teach you how to use *GAGEpack EZ* to efficiently manage inspection, measurement, and test equipment in order to comply with ISO 9000, QS-9000 and other quality standards.

## In just 3 hours you will learn all of this and more:

- How to get the most out of your existing gage data
- How to secure access to your gage data
- How to generate virtually any report with just one click
- How to avoid 3 common audit nonconformities
- How to implement foolproof traceability
- How to perform an R&R study that meets MSA Manual 3rd Edition requirements

## Who should attend

If you are involved in managing gages and other measurement devices in your plant, you should attend this seminar.

## Hands-on training with computers

This hands-on course explores the tracking and analysis opportunities *GAGEpack EZ* affords you. The seminar includes an introduction to *GAGEpack EZ* featuring hands-on computer use with *GAGEpack's* powerful gage management and R&R charting capabilities.

## Gage R&R expertise

Bradley E. Platzer has been a specialist in providing PQ Systems' products and services to customers in manufacturing and healthcare organizations for more than seven years. He leads seminars in *SQCpack*, *CHARTrunner*, and *GAGEpack* and has provided on-site training services for a variety of organizations including Cleveland Clinic, Borg Warner, and Alexian Brothers Medical Center.

# Coming soon!
