

Easy gage tracking using **GAGEpack[®]**_{EZ}

In just two 75-minute sessions, you will learn:

- How to set up a gage management system;
- How to design your own reports;
- How to set security levels so that you're compliant;
- How to filter relevant gage information and show what's important to you;
- How to save time and eliminate errors with choice lists;
- And much more!

Get a better gage on your instruments

These two 75-minute webinars will teach you how to set up a gage management system using *GAGEpack EZ*.

Participants will learn how to use *GAGEpack* to manage inspection, measurement, and test equipment in order to comply with quality standards.

Who should attend

Anyone who is using or plans to use *GAGEpack EZ* should attend these webinars.

Coming to your desk soon!
