"I really needed the basics, but I got the bonus package! Great stuff for beginners and people who have worked with the software before."

Tom Moliterno
Brassini Chassis Systems

"The trainers were great. I enjoyed the training and learned there is so much we can do with our GAGEpack software."

Jennifer Hahn
Katayama American Co., Inc.

Seminar Overview

This two-day seminar will teach you how to set up a gage management system using GAGEpack[®]. You will learn how to set up schedules for calibration and gage repeatability and reproducibility studies, how to generate reports, and how to customize GAGEpack to fit your organization.

In this hands-on seminar, participants will learn how to use GAGEpack to manage inspection, measurement, and test equipment in order to comply with ISO 9000, QS-9000 and other quality standards.

Who Should Attend

Anyone who is developing a gage management system using GAGEpack should attend. Anyone already using GAGEpack (or one of its predecessors) can learn how to take advantage of many powerful features.

Each participant will receive 1.4 C.E.U. credits.
